On the second day of Florida International Medical Expo (FIME) 2019, we focused on education. Thanks to the involvement of the PAIH Foreign Trade Office in Washington DC, Polish exhibitors gathered at the Miami Beach Convention Center had the opportunity to attend a seminar on FDA regulations regarding medical equipment and legal aspects of expanding business operations into the United States.

SEMINAR

FDA REGULATIONS FOR MEDICAL DEVICES &
LEGAL ASPECTS OF BUSINESS EXTENSION
INTO THE USA

We had the honor to invite for distinguished cooperation lecturers **Mr. Domenic J. Veneziano** (independent [FDA regulatory](#) consultant and strategy of the Independent FDA Regulatory & Strategic Consultant, Sandler, Travis, and Rosenberg), who presented the import requirements and the FDA control process for medical products.

Mrs. Justyna Regan (Balcarczyk) (Ph.D.) - attorney and counselor at law licensed in Illinois and Poland, representing the law firm Miller, Canfield, Paddock and Stone, P.L.C familiarized participants with a wide range of issues of particular importance - considering extending their commercial activities and manufacturing procedure to the United States.

Mrs. Regan (Ph.D.) discussed existing possibilities of conducting business in the USA in two variants: without the need to establish a company as well as in a situation where such a company arises, with particular consideration of the selection of the optimal legal form of business as well as tax issues.

We want to express our deepest gratitude to our speakers. We also thank Polish companies for active participation and eagerness of broadening their knowledge.

We are glad that you were with us!

We direct our special thanks to **Ms. Joanna Górska** from the **PAIH Foreign Trade Office in Washington, DC**. Taking this opportunity would like to encourage all companies interested in cooperation with the American market to contact [ZBH in Washington DC](#).
